

SheaHomes®

Caring since 1881

To Whom It May Concern:

Platinum Pipeline, Inc. has recently completed two pipeline projects for Shea Homes with contract values totaling nearly \$1 million. Platinum Pipeline and it's staff are true professionals who have a passion for their work. They completed both projects in a timely, professional, and efficient manner with no change orders of any significance to the original bid. Their entire staff, from field supervision and crew, to administrative personnel, has simply been a pleasure to work with. Shea Homes looks forward to a long lasting working relationship with Platinum Pipeline, Inc., and I would highly recommend Platinum Pipeline, Inc. as a premier contractor for underground utility work.

Please feel free to contact me at the phone numbers below if you would like to discuss our experience with Platinum Pipelines either in person or over the phone.

Sincerely,

David Best
